Stronghold FINANCIAL

A resource for
Arizona families

Does Someone You Love Need More Care?

You May Have More Financial Options Than You Realize.

Care at home, in assisted living, memory care or a nursing facility can strain your family's finances. You may have options beyond paying privately.

> **Before you spend your savings or delay needed care, understand what may be possible.**

Arizona's Long Term Care System (ALTCS) can help eligible individuals pay for long-term care, including certain care at home. Having savings, investments or other assets does not automatically rule out planning options.

Proper planning may help:

Protect savings and other assets

Qualifying for ALTCS does not always require privately spending down your assets on care first.

Reduce out-of-pocket care costs

Potentially thousands or even five figures per month, depending on covered care and eligibility.

Make needed care more financially manageable

Protect the financial future of a healthy spouse

You Don't Have to Figure This Out Alone.

Stronghold Financial helps Arizona families understand their long-term care options.

Schedule a Complimentary 30-Minute Consultation

We'll learn about your family's situation and help you understand what next step may make sense.

Every family is different. ALTCS has medical and financial eligibility requirements, and benefits are not guaranteed. Please do not transfer, gift or spend assets based solely on general ALTCS information.
